

WATER AND WASTEWATER OFFICE

ANNUAL REPORT

2016

The Water and Wastewater Office is currently staffed with 1 Supervisor, 1 Assistant Supervisor, 4 billing clerks and 3 meter readers. We are in the process of upgrading our billing software. The new upgrade will give us a lot more information at our fingertips. All reports will have the flexibility of being put into an excel format and will allow us to sort on any column. That will be a big improvement over the current billing software.

2016 By the Numbers

17,884	Water Customers
17,318	Sewer Customers
18,017	Remote Read Meters
4,019	Autopay Customers
11,644	Work Orders Processed
2,973	Meter Change Outs
112,741	Bills Sent Out
9,806	Delinquent Notices Sent Out

<u>Type</u>	<u>Count</u>	<u>Payment Breakdown</u> <u>———\$———</u>
Checks	61,158	9,812,525
Autopay	23,708	3,362,745
Online	15,683	1,871,927
Cash	20,195	885,892
Credit Card	5,017	1,106,397
	-----	-----
Totals	125,761	17,039,486

COLLECTIONS

For the year 2016 the Water & Wastewater Office collected \$7,557,112 in water receipts and \$9,410,000 in Wastewater/Storm Water receipts. This is an increase of 2.6% or \$190,900 from 2015 water receipts and an increase of 0.8% or \$76,188 in wastewater/storm water receipts from 2015. Water consumption was up by 53,395 HCF (Hundred Cubic Feet) over 2015.

In January 2007, we implemented the collection of deposits for most of our new accounts. The only exceptions are land owners with prior acceptable credit with the Findlay Water Department or a current water department. The deposits have reduced the number of delinquencies that are sent to collection. The Water & Wastewater Office does not take cases to Small Claims Court because collecting the amounts due rarely happens. A tax lien is placed on the property for the amount owed.

In 2016, we wrote off \$1,348 in water, \$2,381 in sewer and \$321 in storm water. We did not collect any amounts that were previously written off.

The following charts compare the collections for the year 2016 and the previous nine years.

WATER RATE HISTORIES

During the past twenty years the rates have changed as indicated below:

Water charges

1996 - no change

1997 - 15.4% increase - The capacity charge and minimum charge were incorporated into one charge. It is called the minimum charge and is adjusted according to the meter size under AWWA standards.

1998 - No change

1999 - No change

2000 - 2% increase

2001 - 3% increase (\$.05 per HCF)

2002 - 3.7% increase

2003 - 4% increase

2004 - No change

2005 - 4.6% increase (Nov 1, 2004)

2006 - 2.9% increase

2007 - No change

2008 - No change

2009 - 6.8% increase

2010 - No change

2011 - 5% increase (Oct 1, 2011) Minimum Charges Adjusted

2012 - No change

2013 - No change

2014 - No change

2015 - No change

2016 - No change

WASTEWATER RATE HISTORIES

During the past twenty years the rates have changed as indicated below:

Wastewater charges

1997 - 7.8% increase - The customer charge and the minimum charge were incorporated into one charge. It is called the minimum charge and is adjusted according to meter size under the AWWA standards.

1998 - 1.5% increase (December 1, 1998)

1999 - No change

2000 - 14.7% increase

2001 - 14.1% increase

2002 - 11.5% increase

2003 - 11% increase

2004 - no change

2005 - 4.6% increase (Nov. 1, 2004)

2006 - 3% increase

2007 - No change

2008 - No change

2009 - 6.2% increase

2010 - No change

2011 - 3.5% increase (Oct 1, 2011) Minimum Charges Adjusted

2012 - No change

2013 - No change

2014 - No change

2015 - No change

2016 - No change

GOALS FOR THE WATER & WASTEWATER OFFICE

Our customer service goals for the year 2017 at the Water & Wastewater Office are to continue providing quality service as in the past, but our technology goals continue to change. These goals are:

1. Strive to bill and collect all the monies owed to the Water & Wastewater Departments.
2. Try to be fair and just with all customers.
3. Make ourselves more accurate and utilize our time better, so the office will continue to operate at a very efficient level.
4. Provide accurate and timely meter readings.
5. Going green for utility bills through email options to our customers. This will reduce paper, postage and printing costs.
6. Keep abreast of all new technology in all aspects of the Water & Wastewater industry and try to incorporate them into our system.

I feel that we have met most of the goals in 2016 that are outlined above. We are working towards the others in implementing new technology.

A few examples of how we met these goals are:

1. We are collecting deposits to start service with the Findlay Water & Wastewater Dept. The deposit is held and applied to the final bill for all of our rental accounts. On owner billed accounts, we are applying the deposit to accounts that have complied with our two year acceptable credit policy.
2. We continue to collect outstanding amounts owed through liens placed on the property. We filed 23 tax liens in 2016 that were

uncollectable through our collection letters and court policy.

3. We have assigned owner ID numbers. This will help us find all properties owned by the same person. If there is a dispute with an owner of a property, we can find all properties relating to the owner.
4. We are contracted with our billing software vendor for an upgrade to our billing program. This should take place at the beginning of 2017. There will be many challenges associated with the upgrade, but we hope there will be many benefits after the implementation.

After upgrading to our new billing software, I am still looking to go to monthly billing for all customers. Although we will have an increase in postage and printing charges, I feel that the benefits would outweigh the increased costs. We will be able to monitor water loss much more closely. It will reduce our bi-monthly customers' bills making it easier for them to budget. It will reduce our delinquencies by allowing us to disconnect for non-payment before the customer can accrue four months of charges. It will give us an accurate picture of our total monthly usage and allow us to compare to monthly output from the Water Treatment Plant. It will even out our billing and make revenue projections more accurate when setting rates due to no lag time for usage to catch up to our billing figures.

OUTLOOK FOR THE FUTURE

Water and Wastewater collections are up for 2016. Water consumption is up from 2015. We are catching leaks much faster and notifying customers of excess usage. I anticipate 2017 collections to increase over 2016 as the economy for Findlay is on the rise.

With the new billing software upgrade, we are hoping to get more timely information at our finger tips.

I feel optimistic about the future of the Water & Wastewater Departments in the City of Findlay, Ohio. We are working together to build a working financial model for both departments that looks well into the future. We have a group of dedicated hard working employees that continue to make serving the citizens of Findlay and surrounding area their number one priority.

Respectfully submitted,

Dean Adler

Utility Billing Supervisor
